James Lawless, the visionary behind Original Skin, embarked on a lifelong quest to unlock the secrets of radiant, age-defying skin. His passion for botanical extracts ignited a deep understanding of nature's potent anti-aging properties. Driven by a desire to share his knowledge, he meticulously crafted Original Skin, a skincare haven that embodies his unwavering commitment to botanical alchemy.

The Science Behind Original Skin: Unveiling the Anti-Aging Elixir

8 SKIN CARE INGREDIENTS for great skin!

These highly effective skin care ingredients will transform your skin and get you glowing. Get specific product recommendations on the blog!

- ## 1 VITAMIN C

Glow, baby, glow, with a daily dose of Vitamin C! It soothes, brightens, and evens skin tone, sun spots, hormonal skin changes like melasma, or just skin dullness you can't shake - it's time to get some Vitamin C! Get more tips on the blog.

- ## 2 HYALURONIC ACID

PLUMP, IT, UP. Hyaluronic acid is a fan fave for its super gentle, yet effective, ability to increase your skin's ability to retain moisture. This means immediately smoother, younger looking skin.

- ## 3 SALICYLIC ACID

Got acne? Don't let it get you down. Salicylic acid is a quick and effective way to keep breakouts at bay without over-drying your skin. Incorporate it into your regular routine to reach your clear skin goals. Find out how to incorporate it without sacrificing your other products.

- ## 4 GLYCOLIC ACID

An AHA, glycolic acid is a gentle, but powerful, exfoliant that will help reveal dewier, younger looking skin, without the negative side effects of harsher chemicals. Find out which overnight glycolic acid regimen I use to turn back the clock years!

- ## 5 LACTIC ACID

Get ready for serious results, with products loaded with lactic acid. A major workhorse, lactic acid exfoliates, brightens, and tightens - reducing the appearance of fine lines and wrinkles by gently exfoliating to reveal fresher, more youthful skin. Spoiler alert: it WORKS.

- ## 6 CERAMIDES

If you haven't started exploring ceramides, what are you waiting for? Ceramides help soothe hydration, protecting skin from environmental damage and dryness. More and more products are jumping on the ceramide bandwagon; find out which ones you should try first.

- ## 7 NIACINAMIDE

Got oil? You need niacinamide. This incredible ingredient will help your skin regulate oil production, while also improving the texture and increasing resilience (read: your skin will age slower). Ready for glassy skin? Get your niacinamide on, girl.

- ## 8 VITAMIN E

Beetles? That's right. Vitamin E and Vitamin C are BFFs and work together to help refresh, heal and protect your skin. Vitamin E is also an anti-inflammatory and can help calm and soothe inflamed skin or reduce conditions like eczema. Find out how you can incorporate more Vitamin E into your routine.
