The map is said to have been created by the Magic People, a race of beings who were said to have mastered the art of time travel. They used the map to travel through time, to change the past, and to shape the future. But the Magic People were also aware of the dangers of playing with time. They knew that even the smallest change could have unintended consequences.

So they created the map with a number of safeguards. The map can only be used by someone who is pure of heart. And even then, the user must be careful not to make any changes to the past that could have catastrophic consequences.

Despite the dangers, the map has been used throughout history by those who sought to change the world. Some have used it for good, to right wrongs and to prevent disasters. Others have used it for evil, to conquer empires and to destroy lives.

In the wrong hands, the map can be a terrible weapon. But in the right hands, it can be a powerful tool for good.
