Step-by-Step Guide

Now that you know the basics of tie dye, it's time to get started on your own project. Here's a step-by-step guide to help you create a tie-dye masterpiece:

1. **Prepare your fabric.** Wash your fabric in hot water and then dry it. This will help to remove any oils or dirt that could prevent the dye from adhering to the fabric.

3. **Mix your dye.** Follow the instructions on the dye package to mix your dye. Be sure to wear gloves to protect your hands.
4. **Apply the dye.** Apply the dye to your fabric using a brush or sponge. Be sure to get the dye into all of the crevices of the fabric.
5. **Let**

the dye set. Allow the dye to set for the amount of time specified on the dye package. This will usually take several hours. 6. **Rinse and wash your fabric.** Once the dye has set, rinse your fabric in cold water until the water runs clear. Then, wash your fabric in hot water with a mild detergent. 7. **Dry your fabric.** Dry your fabric in the dryer or hang it to dry.
